No additional costs will be incurred for the invoicing option selected. The City of Troy designated representative will have final approval for the format of the invoices to be submitted. If invoices are submitted that are not as approved, the City reserves the right to have the invoices re-issued in order to accommodate the City's accounting requirements.

Termination of service will be unacceptable for non-payment of a bill without the successful bidder contacting the designated City representative to resolve the problem. The City will have 45 days to resolve any billing problem from written notice of the termination of service.

PROPOSAL DEPOSIT AND FORFEITURE:

The proposal deposit of any bidder may be forfeit if, after bid opening, a change in the proposal price or other provision of the proposal is required by the bidder which is prejudicial to the interest of the City of Troy or fair competition.

QUALIFICATIONS OF BIDDERS:

The bidder may be required before the award of any contract to show to the complete satisfaction of the City of Troy that it has the necessary facilities, abilities, and financial resources to provide the services specified herein. PRICES

Price shall remain firm through proposal award except the successful bidder whose prices shall remain firm through successful completion of all specified requirements for this project. The contract period shall commence on the date of award and continue for three (3) calendar years until December 31, 2024. The contract may be extended by two – one-year options to renew the contract under the same terms and conditions based upon mutual consent of both parties within 90 days of contract termination. The renewal is subject to a favorable market survey and City Council approval. A request by City staff to determine a successful bidder's interest in renewing a contract in no way obligates the City.

The City can accept a change in pricing at the beginning of the first option year and each year thereafter to be the lesser of 2% or the difference in the Consumer Price Index between the current year (as close to 12 months as possible) and previous year as calculated on the CPI Inflation Calculator available on the Bureau of Labor Statistics website www.bls.gov/cpi/home.htm. The CPI Inflation Calculator uses the average Consumer Price Index for a given year. This data represents changes in prices of all goods and services purchased for consumption by urban households. For the current year, the latest month index value is used.

Subject: **Standard Purchasing Resolution 8: Best Value Award – Upgraded Landscape Maintenance**

History

The Parks Division is responsible for the maintenance of the City's medians and municipal property, which includes the Civic Center Complex and the medians along the Troy Downtown Development Authority (TDDA). This responsibility includes maintaining the turf through cutting, weed control, and fertilizing along with maintaining the landscape beds through mulching, trimming trees and shrubs, and weeding. Image is a very important consideration when improving the economic status of the corridor, which also is why the city provides a higher level of maintenance to this area when compared to other non-irrigated medians and municipal facilities throughout the City.

Because it has become difficult to predict how local weather patterns may influence the growth of landscape; the City of Troy issued a Request for Proposals for Upgraded Landscape Maintenance to be awarded as a performance-based contract. A performance-based contract ensures the awarded contractor shall be 100% contract compliant by including and imposing financial penalties to the contractor if specific contracted maintenance requirements are not met. Proposals are reviewed and rated on specific factors; such as company expertise and professionalism, achievement awards, certifications, specific types of equipment, pricing and professional references from other comparable municipalities.

The Current contract expired December 31, 2021 and was successfully completed by W.H. Canon Inc. for an annual cost of \$161,450. In July of 2021 W.H. Canon Inc was sold to DJ's Landscape Maintenance and will continue to operate as such.

The Troy Downtown Development Authority is currently going through a process to analyze and inventory the corridor to prepare for a re-landscaping effort. The maintenance contract will be adjusted to accommodate this effort if construction would begin during the contract duration.
