## History

- The Streets and Drains Division provides snow and ice maintenance to a network of 364 miles of Local, Major, and County roads in the city.
- The City of Troy uses an average of 7,000 tons of salt annually. To secure a better rate per ton of salt and ensure the city has an established inventory; most of the salt is purchased before the winter season. The salt is stored in a large dome at the Department of Public Works. The salt dome has an 8,500-ton capacity
- Loading the salt with the conveyor is the safest and most effective way to load the dome to ensure maximum capacity.
- The conveyor was purchased in 2013 and requires repairs to operate and work efficiently to allow full storage of salt inside the dome when orders are received.

## Purchasing

- On September 26, 2024 a bid opening was conducted as required by the City Charter/Code for Conveyor Repair and Emergency Conveyor Repair Services for one (1) year with two (2) one-year renewals.
