

RESOLUTION TEMPLATE

Moved by:
Seconded by:

RESOLVED, that the waiver request for [applicant name, company, address or location], for waiver of [request],

Be granted for the following reasons:

That the applicant has demonstrated a compelling reason to deviate from the requirements set forth in the City's Ordinance. This compelling reason(s) is/are _____.

In addition, the Board finds that the following factors have been satisfied:

1. That the animals will be treated humanely and will not be neglected or treated with cruelty, and
2. The animals will be maintained in quarters constructed to prevent their escape, and
3. That reasonable precautions shall be taken to protect the public from the animals and the animals from the public, and
4. That the animals will not be loud or likely be detrimental to the neighborhood.

Be denied because there is not a compelling reason for this Board to deviate from the requirements set forth in the City's Ordinance.

(OPTIONAL) In addition, the Board finds:

1. That the animals will may not be treated humanely and/or will be neglected or treated with cruelty, and /or
2. The animals will not be maintained in quarters constructed to prevent their escape, and/or
3. That reasonable precautions have not been taken to protect the public from the animals and the animals from the public, and/or
4. That the animals may be loud and/or
5. That the animals will likely be detrimental to the neighborhood due to [indicate reason(s)]. and/or
6. Other [indicate reason(s)]

Be postponed for the following reasons:

MOTION CARRIED / FAILED

ANIMAL CONTROL APPEAL BOARD

The Animal Control Appeal Board Appeals is a group of five of your neighbors or peers appointed by City Council to pass judgment on requests for appeals, interpretations, and other matters that are brought before them.

PROCEDURE

The Board will hear the items in the order that they appear on the agenda. When an item is called, the Chair will verify that the petitioner is present. The petitioner will then be given an opportunity to address the Board to explain the justification for the action requested.

After the petitioner makes their presentation, and answers any questions that the Board may have, the Chair will open the meeting to public comment. Any person wishing to speak on the request should raise their hand to be recognized by the Chair. The speaker should identify themselves with name and address, indicate their relationship to the property in question (i.e. next door neighbor, live behind the property, etc.) and state whether they are in favor of or against the request and give reasons for their opinion. Comments must be directed through the Chair. Comments should be kept as brief as possible and closely pertain to the matter under consideration. Only one person will be recognized by the Chair to speak at one time.

After interested members of the public have spoken, the Chair will close the public comment. Once the public comment is closed, no other public comment will be taken unless in response to a specific question by a member of the Board. The Board may allow the petitioner to address or rebut public comments.

The Board will then deliberate and make a motion to approve, deny, or postpone the request. In order for the request to pass a minimum of three votes for approval are needed. The decision of the Board is final.

ANIMAL CONTROL APPEAL BOARD MEETING AGENDA

Jayne Saeger, Chair, Al Petrulis, Vice Chair
Patrick K. Carolan, Doug Dombrowski, Patrick Floch

May 26, 2021

7:00 P.M.

Remote Meeting

Public Comment may be communicated to the Animal Control Appeal Board via telephone voice mail by calling 248-524-1319 or by sending an email to ACBPublicComments@troymi.gov. All comments will be provided to the Animal Control Appeal Board members. All comments must be received by 4 pm the day of the meeting.

1. ROLL CALL
2. APPROVAL OF AGENDA
3. APPROVAL OF MINUTES – March 24, 2021
4. PROCEDURE
5. HEARING OF CASE: 4120 Cypress, Laura Spagnuolo: In order to keep 5 chickens, a waiver from the requirement that the property be at least .75 acres in area. The property is approximately .14 acres in area.
6. OTHER BUSINESS: Troy City Code Chapter 90.
7. ADJOURNMENT

WATCH MEETING: https://troymi.gov/community/government/citycouncil/council_meeting_webcast.php .

JOIN ZOOM MEETING: <https://zoom.us/j/91684814218?pwd=ejNHUFh1Zkk5VjlmNHdEK3JHR0x5QT09>

Meeting ID: 916 8481 4218

Passcode: 566064

Phone: +1 312 626 6799

Enter your email address and first and last names. Failure to do so may delay when you are recognized by the Chair to comment.

NOTICE: People with disabilities needing accommodations for effective participation in this meeting should contact the City Clerk by e-mail at clerk@troymi.gov or by calling (248) 524-3317 at least two working days in advance of the meeting. An attempt will be made to make reasonable accommodations.

Chair Saeger called the Animal Control Appeal Board meeting to order at 7:01 PM on March 24, 2021 via remote meeting utilizing the GoTo Meeting platform.

1. ROLL CALL

Present:

Patrick Carolan

Patrick Floch

Al Petrulis

Jayne Saeger

Doug Dombrowski

Also Present:

Jackie Ferencz, Administrative Assistant, Planning Department

Nicole MacMillan, Assistant City Attorney

Michael Szuminski, Troy Police Department

Paul Evans, Zoning & Compliance Specialist

2. RESOLUTION TO ALLOW ANIMAL CONTROL APPEALS BOARD MEETINGS ELECTRONICALLY

Previous motion to approve from January 20, 2021 meeting stands.

3. APPROVAL OF AGENDA-

MOTION by Carolan

SECOND by Floch

RESOLVED, to approve the agenda

Yes: All

MOTION PASSED

4. APPROVAL OF MINUTES

MOTION by Carolan

SECOND by Floch

RESOLVED, to approve the January 20, 2021 meeting minutes.

Yes: All

MOTION PASSED

5. PROCEDURE: Read by Mr. Evans

6. HEARING OF CASE:

WAIVER REQUEST, 114 LYONS, ROBIN NEWSOME: In order to keep 2 chickens, a waiver from the requirement that a property be at least .75 acres in area. The property is approximately .14 acres in area.

Mr. Evans provided an overview of the case. Applicant stated her case. Board asked questions of applicant.

Chair Saeger opened public comment.

- Ms. Ferencz dictated 2 voicemail messages of public comment.
- Mr. Evans summarized 2 public comment emails.

Chair Saeger closed public comment.

Board members discussed.

MOTION by Dombrowski

SECOND by Carolan

RESOLVED to deny the request due to lot size and its detriment to the neighborhood and likely will cause issues with neighbors.

Yes: All

MOTION Approved

OTHER BUSINESS – 1) Troy City Code Chapter 90

Board discussed City Code Chapter 90

6. ADJOURNMENT

Chair Saeger adjourned the meeting at _____

Laura Spagnuolo – City of Troy Animal Appeal Application
4120 Cypress Drive, Troy, MI 48085

Description of Request:

We are requesting to house 5 female chickens in the northeast corner of our property to raise as egg-laying hens. The chickens to be purchased are the Isa-Brown eggs laying breed, which are known for being quiet, friendly, and winter hardy. The chickens will be housed in a fully enclosed and lockable 25 square-foot coop, which itself will be inside a fully enclosed 250 square-foot chicken run. This run will be located in our 6-foot fully fenced-in and lockable back yard. The overall goal is to incorporate chickens into our backyard for a supply of fresh organic eggs to complement our garden grown vegetables. The property size is approximately 1/3 acre.

Fulfillment of Minimum Criteria:

The four following criteria will be met:

- 1) The animals will be treated humanely and will not be neglected or treated with cruelty
- 2) The animals will be maintained in quarters to prevent their escape
- 3) Reasonable precaution will be taken to protect the public from the animals and the animals from the public
- 4) The animals will not be loud or likely detrimental to the neighborhood

Criteria 1: As mentioned, the motive behind raising chickens is to produce a steady supply of high-quality, organic eggs. To achieve this goal, the chickens will only be fed proper, organic chicken feed purchased from local farm stores, supplemented with any small bugs/worms they forage for in the enclosed run. Although productive, these creatures will be treated as pets and taken care of on a daily basis. The breed we wish to purchase is bred for the Michigan hot and cold climate, allowing them to live comfortably outside year-round. Lastly, the chickens will have plenty of space in their habitat. Literature states that within the coop the ideal space per chicken is four to five square feet, and in our setup each chicken will have at least 5 square feet – enough room to stretch, yet not too much room so that they can keep warm in the winter. The coop will feature a constant supply of food from a bucket feeder and a constant supply of water from a bucket waterer. It will also contain roosts for sleeping, and eventually feature private nesting boxes for each hen. Outside the coop and in the run, the chickens will have about 250 square feet (23' X 11') to walk around, scratch for food, take dust baths, and peck at grass. The run is strategically placed under a tree to provide shade and sunlight, and most importantly shield the birds from flying predators.

Criteria 2: In order to ensure the safety of the animals, four layers of protection will be implemented. First, the chickens will be house in a lock-able coop at night. This will ensure that in no animals can reach the chickens or their food/water, and that they feel secure and safe. The coop will have ventilation for windows but be protected by welder wire and chicken wiring fencing in any openings. On the outside of the coop, as we have in other areas of our property, motion detection lights will be used to scare away any animals at night. The second layer of protection is for during the day, when the chickens will be allowed to enter and exit the coop freely but be fully enclosed in a 250 square foot run. Two sides of the run will be the wood-fence of the yard, while the other two sides will be constructed of welded wire fencing with chicken wire mesh on the lower half. The wood-fence side will be fortified with chicken

4/22/21

wire as well, buried at least 6" below the ground level. The run will have a height just under 5 feet, allowing easy access inside for chicken care, but also feature welded wire mesh as a roof to prevent any animals from entering the run and to prevent chickens from escaping. This way, the chickens are fully enclosed 24-hours a day. The third layer of protection are the two family dogs, which are trained to protect the chickens. The chickens will be considered part of the family pack to the dogs. The dogs spend much of their time outside during the day, and do a good job chasing away any predators that may enter the yard. Lastly, the fourth layer of protection is the 6-foot fence that encloses the yard.

Criteria 3: To protect the animals from the public and the public from the animals, the chickens will always be enclosed at least within their run. In addition to the run, they are also enclosed within our backyard, which features a 6-foot wood fence that was built recently. This fence contains one exit to the front yard on the southern side of the lot, which is lockable with a pad lock.

Criteria 4: The breed of chicken the family intends to purchase is Isa-Brown chickens, all of which will be hens. This breed in particular is known as one of the quietest breeds of chickens and having only hens will ensure that the noise is kept very low. The coop is also positioned in the far corner of the yard, at the furthest point from each neighbor's houses. Lastly, the coop is set up to feature the deep-litter method, which is known to have no odor. Our neighbors are aware of our intentions to raise chickens and are looking forward to receiving some eggs.

Sample Photos:

Figure 1: Property arial view showing location of chicken run (red outline) and coop (shaded red). Yellow arrow denotes the one entrance to the yard.

4/22/21

Figure 2: Close-up arial photo showing location when chicken run (red outline) will be built. The shaded blue triangle denotes the coop, will be a minimum of 6 feet away from the property line.

Figure 3: Corner where run and coop will be located

4/22/21

Figure 4: Minimum run dimensions. The run will be extended to 13' (left) to ensure the coop is at least 6' from the property line.

Figure 5: To-be chicken coop (circled in red). This pool house currently sets as an addition to our deck, but our intentions are to repurpose this at the chicken coop. The triangular structure will be disassembled and moved to the location denoted in Figures 1 & 2. The windows will be closed off and chicken wire will be added to the top to seal the coop from predators. Also, to prevent drafts in the winter months, plywood sheets will be placed on the insides of the walls since the structure as is contains a small gap between planks of wood. The structure will be securely place on the ground in the corner of the lot.

Date: March 10, 2021

To: Animal Control Appeals Board

From: Paul Evans, Zoning & Compliance Specialist

Subject: Troy City Code Chapter 90

At your January meeting, Board Member Dombrowski presented potential modifications to Chapter 90. After Board discussion, there was some interest in seeing follow up information from Member Dombrowski. Member Dombrowski's follow up information is attached.

Additionally, Member Petrulis has provided information for potential modifications to Chapter 90, also attached.

It's my recommendation that, as you vet these proposals, consider that that your ultimate goal is to clearly enumerate the Board's desires to City Council. I anticipate this being in the form of a motion. If you end up doing so, it will be up to Council to determine next steps.

Presented by Member Dombrowski at January 2021 ACAB meeting

- I. "Opportunities" in the existing ordinance
 - a. Livestock is still allowed.
 - i. Cows & horses need 2+ 1 acres to graze.
 - b. ¾ acre requirement appears to have no basis.
 - i. Was it a subjective estimate by the developers of the original ordinance?
 - ii. What about lot shape?
 - c. The wording of sec 90.70.20.f. gives false hope to someone with <3/4 acre.
 - i. *"This requirement may be waived by the Animal Control Appeal Board if the applicant can demonstrate circumstances that allow for waiver pursuant to regulations promulgated by the Animal Control Appeal Board."*
 - ii. Without the promulgations being public, a person is inclined to believe that if they present a reasonable case, the Appeals Board will decide in their favor.
 - iii. Of the 23 cases brought before the Board over the last 10 years, 20 have been for chickens & ¾ acre, only 3 were approved with 0.72-0.74 with contingencies
 - d. Lack of regulations for animals regarding the public
 - i. Handling of waste
 - ii. Rodent/varmint prevention
 - iii. Restriction on roosters
 - iv. Proximity of shelters and coops to neighbors
 - v. Welfare/safety of the animals
 - e. The topic of chickens repeats over and over. Interest in the hobby is growing.
 - i. Of 34 other cities in MI that allow chickens, only Troy & Rochester cite >3/4 acre
 1. The others cite distance to neighbors and have much, much better regulations in place governing the keeping of the birds on any size lot.
- II. The animal ordinance needs to be improved.
 - a. No livestock
 - b. Promulgations published
 - c. Appellate clause should be clarified. For Example:

The Board shall not approve an application for a variance unless it has been found positively that:

1.The strict enforcement of the Ordinance would cause practical difficulty and deprive the owner of rights enjoyed by all other property owners

2.The conditions and circumstances are unique to the subject property and are not similarly applicable to other properties

3.The conditions and circumstances unique to the property were not created by the owner, or his/her predecessor

4.The requested variance will not confer special privileges that are denied other properties

5.The requested variance will not be contrary to the spirit and intent of the Ordinance

- d. $\frac{3}{4}$ acre replaced with distance
 - i. A minimum amount to neighboring residences
 - ii. A minimum distance to property lines
 - e. Tighter regulations on the keeping domestic animals to prevent complaints
 - i. Consideration for what the ordinance tolerates of dogs and cats
 - f. With these things, a few chickens can be allowed on a typical size lot
 - i. Trial period
- III. Motion to conduct a review of options

From: [Doug Dombrowski](#)
To: [Paul M Evans](#)
Subject: Re: March Animal Control meeting
Date: Sunday, March 7, 2021 7:55:47 PM
Attachments: [image001.png](#)
[ideas for revising animal ordinance 210307.docx](#)
[Proposed Revision to City of Troy Animal Ordinance 210306 Dombrowski.pdf.docx](#)
[chickens pros and cons 190816.docx](#)
[local city summary 190731.xlsx](#)

Hi Paul. I finally got motivated this weekend and put together a pitch for the next meeting. I've attached:

- (1) The points that I pitched at the end of the last Board meeting.
- (2) A mark-up of the existing ordinance, along with an explanation for each revision. I felt this was the best way to facilitate effective discussion.
 - a) Note that I'm also suggesting a revised way to handle appeals. Like the Supreme Court, I'm suggesting that the Board pre-screen appeals before holding a meeting, and judge whether the appeal is worthy of a meeting.
 - b) Also note that I'm suggesting to do away with the allowance of livestock
- 3) The 'Pros and Cons' attachment was in the last meeting packet, which originated from me a couple of years ago. It's relevant to the discussion of revising the ordinance.
- 4) The 'local city summary' is the same as #3.

I hope that this makes it to you in time for the next meeting agenda. Let me know if you see any issues with what I've provided.

Finally, thanks a lot for working with me. Your kindness and level of cooperation are really appreciated.

Doug

Subject: Re: March Animal Control meeting

Pros/Benefits

1) For Bird Owners

a) It is a great hobby

- i) Poultry are fun pets
- ii) Raising poultry is cheap
- iii) The Social Aspect

(1) It's novel which piques people's interest and conversation

(2) Kids are interested and want to get involved.

b) Entertainment Value

- i) Observing the individual personalities and quirks of each

c) Improved lawn

- i) Chickens are ground birds, with strong, sturdy feet that are meant for digging and scratching in search of grubs, worms, bugs, tender shoots, and aerating.
- ii) They turn leaf litter and dead bio-matter into the soil.

d) Fresh Eggs

- i) Organic & Non-GMO
- ii) Greater Nutrition

e) Stress relief and companionship

- i) A Source of Therapy

f) Plenty of literature, websites, and support groups exist for urban chicken hobbyists for reference to help conduct the hobby in a cohesive manner in the neighborhood environment.

g) Weed Control

- i) As they scratch and claw the ground, they eat and disperse weed seeds that have blown in

2) For Community

a) A Taste of Country Life

- i) Many people would prefer to live in the country but their job or your family keeps them in the city. Keeping backyard poultry is a way of bringing country life to the city.

b) Educational Value

- i) Learn Where Food Comes From
- ii) A Lesson in Self-Sustainability

c) Pest Control

- i) Chickens are omnivores by nature and thoroughly enjoy chasing down plant-destroying insects like grasshoppers, grubs, beetles, and larvae.

d) Less Food Waste/Bio-recycling

- i) up to 25% of a chicken's diet can be table scraps, thereby avoiding landfill waste.
- ii) each bird can bio-recycle more than 2 pounds per month in vegetable matter and table waste.
- iii) A flock of four birds, if fed a diet of 75 percent layer ration and 25 percent food waste, can eat more than 100 pounds per year in waste.

e) Chicken owners care for the birds like pets and go to extreme measures to pacify neighbors.

- i) Good regulation through local ordinances provides framework for cohabitation
- ii) Local clubs help guide urban chicken owners on how to manage their hobbies

3) For the Chickens

a) Cruelty Free

- i) hens on factory farms are often kept in such close, inhumane quarters that they cannot stretch their legs or wings, walk around, or participate in normal social behaviors

b) Save a Life

- i) 300 million birds each year are crammed into cages that are far too small

- ii) Give a bird a chance at a happy life
- a) Save Heritage Breeds
 - i) Different breeds have different characteristics.
 - (1) Because only certain chickens are good for meat, and others are specially bred for maximum egg production, today's chickens look significantly different from their ancestors.
 - (2) Hobbyists are the ones who raise rare heritage breeds.

Problems/Concerns

Table 3. Common urban chicken keeping concerns addressed

CONCERN	MORE INFORMATION	POSSIBLE SOLUTIONS
Disease	Contracting a communicable disease, like the flu or respiratory illness is negligible for urban poultry farming because of the size of the flock. This is a larger concern in industrial farming. Bacteria, like <i>Salmonella</i> , can be found in poultry droppings.	The hazards of bacterial infections can be mitigated by education regarding how to handle and care for poultry, including washing hands after returning indoors, and how to properly compost droppings for fertilizer. This can easily be addressed by educating urban chicken farmers with printed materials or offering classes.
Attracting pests	Flies and other pests lay their eggs in droppings because they like moisture.	Pests can be minimized through proper bedding care, and the chickens help by eating pests.
Attracting predators	Chickens should not attract urban predators any more than a cat or dog.	With the exception of hawks, most predators are nocturnal while chickens are diurnal (active during the day). Enclosing the chickens at night should prevent predators from accessing the chickens.
Cost for low-income families		Part of the Metropolitan Food Systems Plan is addressing issues of food access, possible barrier reduction could include funding and management from outside sources, like a non-profit, to cover the startup costs.
Disposal		For a fee, the Vet Diagnostic Lab at NDSU will provide dead animal disposal.* Other communities have offered these options: 1. City provides dead animal pick-up free of charge 2. Buried on property at least two feet down 3. Closed securely in a plastic bag and placed in the municipal trash
Noise	Hens "talking" at their loudest, speak at the same decibel level as human conversation (about 60 decibels). This is also personality-based; some hens are more talkative than others. Roosters crow at about the same decibel level as a barking dog (90 decibels).	A majority of urban ordinances ban roosters, because of their loud crowing.
Smell	Chicken manure is high in nitrogen, which can lead to an ammonia smell if not properly cared for.	Adding carbon material, like dried leaves and straw, to the bedding will get rid of the smell; it is all about carbon to nitrogen ratio. Odor can be remedied through quality bedding.
Winter keeping		Proper education can reduce the impact of winter poultry farming: make sure to keep combs warm and use a heat lamp when the temperature gets below 20 degrees.

Options

- 1) Increase the distance to lot line in the proposed animal ordinance revision from 10' to 25' and to adjacent house from 40' to 50'.
- 2) For concerns about noise, require soundproofing of coop.
- 3) Limit the number of birds allowable on any property to a maximum number.
- 4) Increase the number of birds allowed on smaller lots from 4 to 6.
- 5) Different quantity max's of birds
- 6) Expand the scope of revising the animal ordinance
 - a. Include a restriction on all or most livestock, based on input from Troy Animal Inspectors' experience; or
 - i. Limit number of livestock on $\frac{3}{4}$ acre
- 7) Include a restriction on Pitbulls and Rottweilers.
- 8) Endorse creation of poultry club to aid in kickoff of revised ordinance to ensure minimal issue.
- 9) Trial pilot program like Berkley limited # of permits for trial period.

<https://www.naturallivingideas.com/20-convincing-reasons-to-keep-backyard-chickens/>

- I. Deficiencies in the existing ordinance
 - a. Livestock is still allowed.
 - i. Cows & horses need 2+ 1 acres to graze.
 - b. $\frac{3}{4}$ acre requirement appears to have no basis.
 - i. Was it a subjective estimate by the developers of the original ordinance?
 - ii. What about lot shape?
 - c. The wording of sec 90.70.20.f. gives false hope to someone with $<3/4$ acre.
 - i. *"This requirement may be waived by the Animal Control Appeal Board if the applicant can demonstrate circumstances that allow for waiver pursuant to regulations promulgated by the Animal Control Appeal Board."*
 - ii. Without the promulgations being public, a person may incorrectly think that unless the ordinance doesn't explicitly state the regulation, it is not legal.
 - iii. Of the 23 cases brought before the Board over the last 10 years, 20 have been for chickens & $\frac{3}{4}$ acre, only 3 were approved with 0.72-0.74 with contingencies
 - d. Lack of regulations for animals regarding the public
 - i. Handling of waste
 - ii. Rodent/varmint prevention
 - iii. Restriction on roosters
 - iv. Proximity of shelters and coops to neighbors
 - v. Welfare/safety of the animals
 - e. The topic of chickens repeats over and over. Interest in the hobby is growing.
 - i. Of 34 other cities in MI that allow chickens, only Troy & Rochester cite $>3/4$ acre
 - 1. The others cite distance to neighbors and have much, much better regulations in place governing the keeping of the birds on any size lot.

- II. The animal ordinance needs to be improved.
 - a. No livestock
 - b. Promulgations published
 - c. Appellate clause should be clarified. For Example:

The Board shall not approve an application for a variance unless it has been found positively that:

1.The strict enforcement of the Ordinance would cause practical difficulty and deprive the owner of rights enjoyed by all other property owners

2.The conditions and circumstances are unique to the subject property and are not similarly applicable to other properties

3.The conditions and circumstances unique to the property were not created by the owner, or his/her predecessor

4.The requested variance will not confer special privileges that are denied other properties

5.The requested variance will not be contrary to the spirit and intent of the Ordinance

- d. $\frac{3}{4}$ acre replaced with distance
 - i. A minimum amount to neighboring residences
 - ii. A minimum distance to property lines
- e. Tighter regulations on the keeping domestic animals to prevent complaints
 - i. Consideration for what the ordinance tolerates of dogs and cats
- f. With improved regulations, a few chickens can be allowed on a typical size lot

Chapter 90 - Animals

90-1

GENERAL REGULATIONS

- 90.10.10 **Definitions.** The following terms when used in this Chapter shall have the meanings set forth in this Section:
- 90.10.11 “Animal” - Any living creature, except humans and plants. “Animal” includes any mammal, bird, reptile, snake, turtle, crustacean or any other vertebrate or invertebrate.
- 90.10.25 “Dangerous Animal” - A wild or feral animal, other than a dog or cat, which because of its size, aggressive nature or other characteristics constitutes a danger to persons or property.
- 90.10.30 “Domestic Animal” – **livestock and poultry¹** - An animal, other than a dog, that is not feral in nature, including, but not limited to horses, cows, chickens, geese, pigeons, ducks, steers, ponies, mules, donkeys, sheep, swine, pigs and goats.
- 90.10.31 “Livestock” - **Farm animals, with the exception of poultry, including, but not limited to cattle, sheep, pigs, goats, horses, donkeys, and mules.²**
- 90.10.32 “Poultry” - **Birds raised commercially or domestically for meat, eggs, and feathers including, but not limited to chickens, ducks, turkeys, and geese.³**
- 90.10.35 “House Pet” - A non-domestic and non-dangerous small animal normally kept confined as a pet, including but not limited to hamsters, fish and parakeets.
- 90.10.60 “Owner” - A person or a group of persons who owns, controls, harbors, keeps, or has a property interest in any animal.
- 90.10.65 “Person” - An individual, employee, corporation, partnership or association.
- 90.10.90 “Wild Animal” – An animal that is not defined in this Chapter as a dangerous animal, domestic animal or house pet.
-
- 90.70.20 Permit Application Process. An applicant for a domestic, dangerous or wild animal permit shall:

- a) furnish the Housing and Zoning Inspector a list of the species of animals to be kept and the maximum number of each species to be kept at any one time, and
- b) demonstrate that the animals will be treated humanely and will not be neglected or treated with cruelty, and
- c) demonstrate that the animals will be maintained in quarters constructed to prevent their escape, and
- d) demonstrate that reasonable precautions shall be taken to protect the public from the animals and the animals from the public, and
- e) demonstrate that he or she can comply with the ordinance and any regulations promulgated by the Animal Control Appeal Board, and
- f) ~~as of <date>, ownership of livestock is no longer permitted. Existing permits are valid until their expiration. ⁴ in the case of domestic animals, demonstrate to the Housing and Zoning Inspector that the lot or parcel that animals will be kept on is three-quarters ($\frac{3}{4}$) of one (1) two acres or larger owning and harboring such animals are prohibited. This requirement may be waived by the Animal Control Appeal Board if the applicant can demonstrate circumstances that allow for waiver pursuant to regulations promulgated by the Animal Control Appeal Board. Waivers will not be granted for animals that are loud or likely to be detrimental to the neighborhood.~~
- g) in the case of poultry, demonstrate the following to the Housing and Zoning Inspector ⁵:
 - 1) A covered or fenced enclosure shall not be located closer than ten feet from a property line of an adjacent property nor shall it be located closer than 40 feet to any residential dwelling on an adjacent property. ⁶
 - 2) Coop and pen must be kept in the backyard only. ⁷
 - 3) Birds must be kept on poultry owner's property unless permission is granted by adjacent property owner(s). ⁸
 - 4) All enclosures for the keeping of poultry shall be constructed to prevent rodents from being harbored underneath or within the walls of the enclosure. ⁹
 - 5) Waste materials (feed, manure, and litter) must be bagged and disposed of in the trash. It is not acceptable to pile waste materials on the property. ¹⁰
 - 6) Feed must be stored in a manner to prevent access to rodents

and varmints. ¹¹

- 7) Only small birds, no larger than chickens and ducks, are allowed. ¹²
- 8) No roosters. ¹³
- 9) The birds are kept as a hobby or pets. ¹⁴
- 10) Birds can only free-roam under supervision. ¹⁵
- 11) No slaughtering birds on site. ¹⁶
- 12) No housing birds in residential dwellings. ¹⁷
- 13) A maximum of ten, and a minimum of two, birds are allowed. ¹⁸
- 14) Birds must be provided shelter, at least ten feet from the residence and provide a minimum of 1 foot of perch space for roosting at least 12" and no more than 4' from the floor. ¹⁹
- 15) Birds must be provided a minimum of 4 sf of coop space (roofed shelter). ¹⁹
- 16) Roofed shelters (coops) must contain a layer of wood shavings, straw, or similar bedding material to facilitate clean-up of waste and provide bedding and nesting material. ¹⁹
- 17) Birds must be provided a minimum of 10 sf of enclosed outdoor run space. ¹⁹
- 18) A safe source of heat must be provided for birds in cold weather to maintain a minimum coop temperature of 32F. ¹⁹
- 19) The lot on which the birds are kept must be fenced on the sides with neighbors. ²⁰

Additional restriction for poultry on less than ¼ acre lots:

- 20) Flock size must be between two and four birds, or six if miniature in size (bantams, quail, etc). ²¹

.....

90.80.80 Procedure for Appeals.

Appeals from the decisions of the Housing and Zoning Inspector to the Animal Control Appeal Board must be:

- a) filed at the office of the Troy Housing and Zoning Inspector on forms provided, and
- b) filed within seven (7) days of the date of the Housing and Zoning Inspector's decision regarding the issuance or denial of a permit for dangerous animals or domestic animals, and
- c) filed within seven (7) days of the date of the Housing and Zoning Inspector's decision regarding the revocation of a permit for dangerous animals or domestic animals.

d) the Animal Control Appeal Board members will individually review case submissions and provide their assessment on whether an Animal Control Appeal Board meeting shall be held to hear the case. A majority of members in favor of a meeting must exist prior to scheduling the review meeting.

The Board shall not approve an application for a variance unless it has been found positively that:

1.The strict enforcement of the Ordinance would cause practical difficulty and deprive the owner of rights enjoyed by comparable other property owners

2.The conditions and circumstances are unique to the subject property and are not similarly applicable to other properties

3.The conditions and circumstances unique to the property were not created by the owner, or his/her predecessor

4.The requested variance will not confer special privileges that are denied other properties

5.The requested variance will not be contrary to the spirit and intent of the Ordinance

e) upon acceptance of an appeal, the City Clerk shall provide notice of the time, date and place of the appeal to all property owners within 300 feet of the appellant's property.

¹ The definition of "Domestic Animals" in the existing ordinance is wrong. Domestic Animals includes dogs and cats, which the ordinance addresses elsewhere, outside of the section of Domestic Animals.

² This is the Britannica definition

³ This is the Britannica definition

⁴ It is for the Council to consider if horses, cows, donkeys, and other livestock should still be allowed on ¼ acre. Some people in Troy supposedly have pet pigs and goats. There are no more horses in Troy, and presumably cows neither. Cows & horses need 2+ 1 acres to graze. Most other livestock are similar.

⁵ A simple internet search shows that pet poultry is growing in popularity and benefits the community. Poultry are contained in enclosed pens. Livestock wander freely and graze. Control of these animals must be handled separately. Poultry needs to be addressed apart from livestock.

⁶ This is the crux of the proposed revision. Minimum limit of space between animals and neighbors should be defined by distance, not area. Requiring $\frac{3}{4}$ acre does little to ensure distance to neighbor nor does it consider lot shape (i.e. long and narrow, L-shaped). Of 34 cities in Michigan that allow pet poultry, Troy is unique, with the only exception being Rochester, that minimum area is used to restrict poultry. (Rochester's Animal Ordinance is very similar to Troy's. Perhaps they were developed together which explains why they share the same deficiencies). What protects neighbors' interests better – the existing Troy restriction on area that allows someone to put a coop or pen on the property line or a revised code that ensures suitable distance buffer? Some of the 32 Michigan poultry ordinances allow 5 feet to property line and 25 feet to dwelling. The herein proposed 10 and 40, respectively, are conservative.

⁷ The existing code allows residents to have coops and pens in their front yard. Restricting this will prevent future disputes in Animal Control and Inspection. The good ordinances have this.

⁸ Prevention of wandering birds prevents neighbor complaints. The good ordinances have this.

⁹ The good ordinances cite prevention of rodents and varmints.

¹⁰ The good ordinances cite sanitary requirements.

¹¹ Same as #9.

¹² Turkeys, peacocks, ostriches, and exotic farm birds are outside the scope of this revision.

¹³ Another blatant example that the existing ordinance needs to change. Most cities prevent roosters for obvious reasons. This is a point that stands alone in weeding out poorly planned animal ordinances.

¹⁴ Small scale backyard poultry works in suburban communities because the birds are pets, like dogs and cats. Studies have shown that the noise level of a few birds is less than an average dog, and they are easier to care for.

¹⁵ This is called "limited free range" and is another point in well-considered animal ordinances.

¹⁶ Most poultry ordinances restrict slaughtering. Troy's existing ordinance does not for any Domestic Animal.

¹⁷ Supposedly some people in Troy have appealed to have indoor chickens. Studies and consensus of hobbyists is that indoor keeping is disadvantageous for the birds.

¹⁸ Yet another paramount issue with no restriction in the existing Troy ordinance. According to the ordinance, a resident is allowed unlimited birds regardless of the lot size. However, the 10 maximum is an existing promulgated regulation. Promulgated regulations should be formalized at this opportunity. A person may incorrectly think that, unless the ordinance explicitly states the regulation, the promulgated regulation is not legal and is, therefore, arguable.

¹⁹ Hobbyists' criteria for adequate accommodations.

²⁰ A primary complaint is wandering, forging birds.

²¹ People have requested the Troy Animal Ordinance be changed before for chickens but have not done the research nor proposed a case until now. Nearly all of the applications for appeals are for chickens

and nearly all of those are denied. By providing better regulations on poultry including distance restrictions, which protect the interests of neighbors, a beneficial opportunity arises for those previously denied their enjoyment. In all but one of the other 34 communities cited in the study of Michigan urban poultry, Troy stands alone in preventing chickens as pets on under $\frac{3}{4}$ acre.

By limiting the number of birds, and basing space restrictions on distance rather than area, neighbors of even $\frac{3}{4}$ + acre poultry owners are protected. The average allowance of birds of the 34 Michigan cities is five. Restricting to four is conservative and sufficient for hobbyists. Consensus of hobbyists is that less than a pair of birds is disadvantageous to the lone bird.

Subject: Chapter 90.70
Date: Friday, March 5, 2021 10:59:40 AM
Attachments: [Cities - Prohibition Domestic Animals.docx](#)

Paul,

In consideration for a solution with the issue of maintaining chickens or any domestic/livestock animals in the City of Troy, I would like to propose to the Troy Animal Control Board of Appeals (ACBA) a change to Chapter 90 – Domestic Animal Ordinance specifically as it relates to traditional domestic/livestock animals such as chickens, pigs, cows, etc, and the issuance of permits to keep and maintain such animals within residential properties.

My proposal consists of removing Section 90.70 altogether. Instead, I propose a section that clearly prohibits domestic animals and livestock from being kept and maintained within residential properties regardless of property size. A grandfather clause would be included to protect those that have existing valid permits but would not be transferable upon the sale of the property. Also, I propose to allow current property owners with lots greater than $\frac{3}{4}$ acres that have existing domestic animals to be allowed a valid permit to keep their current animals.

It is my opinion that the City of Troy is not obligated to allow its residents to keep and maintain domestic animals within residential properties. Even though there are cities in Southeast Michigan that choose to have ordinances and provisions that allow residents to keep domestic/livestock animals, many other cities instead have chosen to implement ordinances that completely prohibit domestic/livestock animals on residential properties.

The following is a list of cities in S.E. Michigan that prohibits non-common pets, such as domestic and livestock animals including pigs, cows, goats, fowl, and wild animals.

Ada Township
Allen Park
Birmingham
Bloomfield Hills
Bronson
Dearborn Heights
Detroit
Farmington
Flint
Fraser
Garden City
Grosse Pointe
Grosse Pointe Woods

Harper Woods
Huntington Woods
Mount Clemens
New Baltimore
North Branch
Oak Park
Plymouth
Rochester
Romeo
Shelby Township
St. Clair Shores
Taylor
Utica

Attached are summaries of the ordinances for each of the cities listed above (as of 2016).

Below is a “rough” sample of the wording for my proposal for a section prohibiting domestic/livestock and wild animals in the City of Troy.

Sample Section: Keeping of domestic animals, including fowl, livestock and wild animals. No person shall keep or house any animals within the city except dogs, cats, birds, or animals commonly classified as pets. No horse, cow, calf, swine, sheep, goat, chickens, geese or ducks, etc. shall be kept at any residential property regardless of size. Any permits previously issued shall be grandfathered until such time as the fowl are deceased and at that time said permits shall expire and no new permits shall be granted. Existing permits shall be honored for properties larger than $\frac{3}{4}$ acres. No new permits to be issued regardless of property size.

The exact wording would need refinement and approval by the ACBA.

I realize my proposal may not be appreciated by all residents but I do believe that the majority of Troy residents would agree that the keeping of domestic/livestock animals on our residential properties is not in the best interest of the city.

I look forward to discussing my proposal at the March 24th, 2021 meeting with the ABCA.

Kindest regards,

Al Petrulis

Cities that DO NOT allow chickens & fowl:

Ada Township Sec. 78-17. – Keeping of pets and livestock. The keeping of more than three dogs and/or cats or the keeping of *poultry*, hogs, horses or other livestock is prohibited within any district except the AGP, RP-1, RP-2 and RR districts; provided, however, that any litter of dogs or cats which causes the aforesaid limit of three to be exceeded shall not constitute a violation of this provision for a period of four months after birth.(Ord. No. O-042682-1, § 3.13, 4-26-1982; Ord. No. O-021710-1, § 5, 2-17-2010)

Allen Park Sec. 6-50. Restrictions on keeping non-common pets or wildlife.

(a) It shall be unlawful for any person to keep, harbor or raise any non-common pet or wildlife including but not limited to any of the following: (1) Bear; (2) Canine, except and not including any member of the dog family customarily domesticated by man; (3) Exotic bees; (4) Feline, except and not including any member of the cat family not customarily domesticated by man; (5) Hoofed animal, including potbellied pigs; (6) Marsupial; (7) Primate; (8) Raptor; and (9) Reptile, except and not including any non-venomous member of the order Crocodylia under six inches in length. (10) Fowl, except and not including any member of the bird family not customarily domesticated by man that is housed in a cage in a family residence and whose wings have been clipped to prevent flight.

Birmingham Sec. 18-8. – Keeping of domestic animals and *fowl*. No person shall keep or house any animals within the city except dogs cats, birds, or animals commonly classified as pets. No horse, cow, calf, swine, sheep, goat, chickens, geese or ducks shall be kept in any dwelling or part thereof. Nor shall any such animal be kept on the same lot or premises with a dwelling. This offense is punishable by up to 90 days in jail and/or \$500.00 fine. (Code 1963, § 9.64; Ord. No. 2075, 11-28-11)

Bloomfield Hills Sec. 3-4. – Livestock prohibited. (b)"Livestock" means horses and other equine, cattle, sheep, swine, mules, burros, goats, llamas or other new world camelids, bison, *poultry*, rabbits and other animals used for human food and fiber or primarily for service rather than companionship to humans. Livestock does not include dogs and cats.(c) It shall be unlawful and a violation of this section for any person to possess or maintain livestock within the city. Owners or possessors of livestock shall be responsible for compliance with this section and subject to punishment for violations. For purposes of this section, "possess or maintain" means the act or ability of having or exerting control and influence over livestock, without regard to ownership and "owners or possessors" mean persons who have a right of property in livestock, who have livestock in their care of custody, or who knowingly permit livestock to remain on or about property occupied or controlled by them.

Bronson 90.03 KEEPING OF FARM OR WILD ANIMALS. (A) No person shall own, keep or house any farm or wild animals within the city. (B) No horses, cows, swine, goats, sheep, chickens , geese, ducks, donkeys, pigeons or any other farm or wild

animal be kept in any dwelling, or part thereof. (C) No such animals or fowl shall under any circumstances be kept on any lot or premises within the city limits.

REPORT THIS AD

Dearborn Heights Sec. 6-66. – Domestic animals and fowl. No person shall keep or house any animals or domestic fowl within the city except dogs, cats, canaries or small animals commonly classified as pets which are customarily kept or housed inside dwellings as household pets. (Code 1969, § 9.87)

Detroit Sec. 6-1-3. – Owning, harboring, keeping, maintaining, selling or transferring of *farm* or wild *animals* prohibited; exception for circuses, zoos, and other approved activities; separate violations for each *animal*; disposition of *animals* in violation of this section.(a) It shall be unlawful for a person to own, harbor, keep, or maintain, sell, or transfer any *farm animal*, or any wild *animal*, on their premises or at a public place within the City; provided, that *farm animals* or wild *animals* may be kept in circuses, zoos, or laboratories, subject to the approval of the City, where the care or custody is under the care of a trained and qualified *animal* attendant at all times, whose responsibility shall be to see that such *animals* are securely under restraint. (Ord. No. 04-04, § 1, 1-30-04)

Farmington (UNCLEAR ; acreage limit, farms can keep, but has on the books an ordinance disallowing livestock) Sec. 20-303. – *Livestock*, exotic or vicious animals. The keeping of *livestock* is prohibited. The keeping of any exotic or vicious animal is prohibited.

Flint (residential- allowed in agri zoning) 9-15.1 KEEPING OF POULTRY AND THE LIKE RESTRICTED. No poultry or domestic fowl, other than household pets such as canaries and parakeets, shall be kept upon any residentially zoned lot within the City. (Ord. 2058, passed 6-10-1968)

Fraser Sec. 32-33. – Animals. No animals, livestock or *poultry* of any kind shall be raised, bred or kept on any lot, except that non-vicious dogs, cats or other household pets may be kept, provided they are not kept, bred or maintained for any commercial purposes. (Ord. No. 279, § 3.02, 12-12-96)

Garden City 90.01 PETS; SALE OF ANIMALS; PROHIBITIONS. (A) No person shall keep or house any animals or fowl within the city except dogs, cats, canaries, or animals commonly classified as pets, customarily kept or housed inside dwellings as household pets. (B) No person shall sell, or offer for sale, barter, or give away baby chicks, rabbits, ducklings, or other fowl as pets or novelties, whether or not dyed, colored, or otherwise artificially treated. This division shall not be construed to prohibit the display or sale of natural chicks or ducklings in proper brooder facilities by hatcheries or stores engaged in the business of selling the same to be raised for commercial purposes.(Ord. 11-006, passed 4-25-11)

Grosse Pointe Sec. 10-4. – Keeping domestic animals and *fowl* generally. Except as provided in this chapter, no person shall keep or house any animals or domestic *fowl* within the city except dogs, cats, birds, *fowl* or animals commonly classified as pets. (Code 1980, § 9.84)

Grosse Pointe Woods Sec. 6-3. – Livestock. (a) definitions. The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning: Livestock means horses, cows, calves, swine, sheep, goats, rabbits, chickens, geese, ducks, pigeons or other like or similar animals or *fowl*.(b) Harboring. It shall be

unlawful for any person to keep livestock in the city with the exception of the Grosse Pointe Woods Hunt Club.(Code 1975, § 8-13-2; Code 1997, § 6-157)

Harper Woods Sec. 4-2. – Animals prohibited; exceptions. (a) It shall be unlawful for any person to keep any animal or *fowl* within five hundred (500) feet of any dwelling, street, alley or public place, except such animals as are commonly kept or housed as household pets; or permit any animal or any *fowl* owned by him or in his possession or control to run at large in any street, alley or public place, or upon the premises of another without express permission of the owner or occupant thereof.

REPORT THIS AD

Huntington Woods Sec. 4-4. – Domestic animals and *fowl*. No person shall keep or house any animals other than domestic dogs, domestic cats, canaries or animals commonly classified as pets, which are customarily kept or housed inside dwellings as household pets. The term “pet” or “household pet,” as used in this section, does not include exotic, wild, vicious or dangerous animals including, but not limited to, any of the following: domestic *fowl*, live monkeys, alligator, crocodile, raccoon, skunk, fox, bear, sea mammal, poisonous snake, constrictor snake longer than six feet in length, member of the feline species other than the domestic cat, member of the canine species other than the domestic dog, or any other animal which would require a standard of care and control greater than that required for customary household pets sold by commercial pet shops. This section shall not apply to any lawfully operated zoo. (Code 1988, § 9.38; Ord. No. 423, § 1, 5-19-1998)

Mount Clemens 15.042 – Sec. 4.2 ANIMALS. No animals, *livestock* or poultry of any kind shall be raised, bred or kept on any residentially zoned or used property, except that non-vicious dogs, cats or other household pets may be kept, provided they are not kept, bred or maintained for any commercial purposes. All animals shall be maintained in accordance with applicable City Ordinances.

New Baltimore Sec. 8-6. – Domestic animals and *fowl*. No person shall keep or house any animals or domestic *fowl* within the city except dogs, cats, birds, *fowl* or animals commonly classified as pets. (Code 1981, § 9.65)

North Branch Section 2. RIGHT TO KEEP FARM ANIMALS. No person shall keep or harbor farm animals on any property within the Village limits unless the farm animals are located on a farm which had such farm animals on the effective date of the Village Zoning Ordinance, December 1, 1980 or unless a zoning variance has been granted.

Oak Park Sec. 14-5. – Keeping of animals and *fowl*. No person shall keep or house any animals or domestic *fowl* within the city except dogs, cats, canaries or animals commonly classified as pets which are customarily kept or housed inside dwellings as household pets, and excepting further, the temporary keeping of live poultry by any lawfully established live poultry market incidental to the normal course of business. (Code 1973, § 6-5)

Plymouth Sec. 14-4. – Domestic animals and *fowl*. No person shall keep or house any animals or domestic *fowl* within the city except dogs, cats, birds, *fowl* or animals commonly classified as pets. (Ord. No. 99-9, 6-21-99)

Rochester Sec. 8-5. – Unlawful to keep certain animals and *fowl*. No person shall keep or house any animals or domestic *fowl* within the city except dogs, cats, birds, or animals commonly classified as household pets. (Ord. No. 1991-15, 8-12-1991; Code 1982, § 9.2-4)

Romeo Sec. 4-1. – Keeping within corporate limits. No person shall keep any horses, cattle, swine, sheep, ponies, goats, rabbits, poultry or other animals and *fowl*, except dogs and cats, within the corporate village limits. (Code 1993, § 35.251)

Shelby Township Section 3.02. – Animals. No animals, livestock, or *poultry* of any kind shall be raised, bred or kept on any lot, except that non-vicious dogs, cats or other household pets may be kept, provided that they are not kept, bred or maintained for any commercial purpose. Horses may be allowed as per requirements of **section 3.19**. All animals shall be kept and maintained so as not to create a nuisance. The maintenance of animals is further regulated by **chapter 6**, article I of the Shelby Township Code of Ordinances. Kennels may be allowed as a special land use in the HM, Heavy Manufacturing District subject to compliance with the requirements of **Section 13.51**. (Ord. No. 212.5, § 2, 7-20-1999; Amend. of 10-21-2008; Ord. No. 212.89, 9-4-2012)

REPORT THIS AD

St. Clair Shores 35.059 – Farm animals prohibited. Sec. 19-9. No person shall own, keep, harbor, have custody or raise any farm animal except that one rabbit shall be permitted per residential premises. (chap. 19 eff. Nov. 22, 1988)

Sterling Heights SECTION 3.01. PERMITTED USES B. Agriculture, provided that on parcels of less than eight acres, there shall be no raising of livestock, fowl or other animals;

Taylor Sec. 14.09. – Keeping of animals. (a) Domestic animals, dogs, cats, birds and nonbreeding rabbits are limited to a total of three animals age four months or older per household. (b) Unless otherwise provided in this ordinance, no building or land in any district shall keep, raise, procreate or otherwise allow on the premises any wild or exotic animal, *fowl*, farm animal or livestock. (c) Excluded from this regulation are facilities owned and operated by the city and fully accredited academic institutions. All are subject to the health and sanitation provisions of the City of Taylor and shall not become a nuisance. (Ord. No. 09-434, § 14.09, 1-20-2009)

Utica Sec. 2-5-56 Fowl—Prohibited. [Ord. No. 107, 9-2-2009; amended 2-16-2011 by Ord. No. 30] **(a)** No person shall have, or keep, or offer to sell any fowl within the City of Utica. “Fowl” includes any live chickens, geese, ducks, pigeons, or doves. **(b)** Any permits previously issued shall be grandfathered until such time as the fowl are deceased and at that time said permits shall expire and no new permits shall be granted.
