1. Petition for removal of "Fire Route" signs on Cliffside.

Committee members discussed this request with the visitors present. One of the major concerns of the petitioners was that during the winter, it is often necessary for visitors who must park across the boulevard to cross the snow-covered islands because the turn arounds are not plowed out.

Motion by Ferguson, supported by Romanowski to recommend that the City Commission deny the request for removal of the "Fire Route" signs on Cliffside, and request that the D.P.W. keep the turn arounds clear of snow during the winter.
