Subject: Gratitude

Manager Miller-

We often recognize our first responders for the work they do in our community on behalf of others, but tonight I witnessed some who probably don't receive as much recognition.

There appeared to be a water main break in our neighborhood on Shallowdale. As I return to write this in my warm home, members of the DPW were in a wet, muddy hole addressing this issue. I'm sure this is a regular occurrence, but wanted to express our gratitude to these employees and the city for services we often take for granted.

Respectfully,
Paul Tennes
