Dear City Planning Division,

I wanted to come to tonight's meeting, about the parcels located **South side of Long Lake, West of Rochester**, but unable to attend later.

I realize this is a little late, but I am hoping you folks can still use our valuable input. We are a commercial garden center, Grammas Gardens, located directly across from this proposal, so Jake and I wanted to say a couple things:

1) **We are 100% in support of this development**, rather than seeing "blight" develop across the street from our garden center. I personally appreciate ALL new development being proposed, and happening, in our immediate vicinity.

2) **We suggest that these developers, of this parcel proposed, have a solid plan in place for entrances to this development off Long Lake.** Both for construction, and good, ergonomic flow of cars connecting in that....safety on the road!

3) **Grammas Gardens is committed to redeveloping our area to coordinate.** We will work tirelessly to not only keep our garden center looking clean, but encourage/help our immediate neighbors to improve their parcels. That is all I have the strength, and resources, to do to help do :)

That's it! That is pretty much our input about this new development. Thanks for letting us share this valuable opinion. And as always, keep up the good work.

See ya soon,

Larry Chiapelli 248.689.1655

Owner of Gramma's Gardens
