**P. COUNCIL COMMENTS:**

---

**P-1 Council Comment Submitted by Council Member David Hamilton**

Council Member Erickson Gault commented that she is open to forming a sustainability committee, and she wants to make sure it is something meaningful, and with a staff liaison. She said the committee must be transparent, with OMA and FOIA applying to the committee's meetings and work. She said it is important that the committee also be subject to the provisions of the Ethics Ordinance. She said that the committee would also need to work in the framework of the Green Communities Network.

Mayor Pro Tem Chamberlain-Creanga commented that Troy is already a member of the Green Communities Network, which will help with setting up the committee. She said this is timely because it is coming up on budget season, so it's a good time to look at the needs of the committee such as staff support. She said that Troy needs a sustainability committee, and she hopes that there will be consensus to direct City Management to work on this.

Council Member Brooks asked for the process of setting up the committee. City Attorney Bluhm answered that the language would need to be reviewed, but it could be an ordinance or it could be a resolution, though she recommended that an ordinance would be more advisable.

City Manager Miller commented that there is not specific staff to handle sustainability, but once Council provides consensus of what they want from this committee, there could be some decisions made as to staffing and budget needs.

Council Member Abraham commented that she thinks there needs to be leadership from a staff liaison to guide the conversations and formation of the committee. She said it is timely with budget season coming up, but there needs to be thoughtful discussion of the resource needs in order to make sure the committee is effective. She said that this committee would bring an important voice to Troy, and she wants to make sure the committee formation is done correctly.

Council Member Hodorek commented that up to this point, the development of the budget has been done based on the conversations at the City Council Advance held last November, where a list of priorities were developed. She said that while forming a committee seems simple, it actually involves staff time that has not been planned at this point. She said she is very passionate about sustainability, and her balance is knowing what City Management would need to do in order to plan for a new committee. She said that she supports directing the City Manager to investigate and report back to Council with the resources that would be needed for

this committee. She encouraged the resident volunteers to start meeting, and get some ideas and plans formed, so that when the City is able to provide staff resources and form the committee, there will be some of the work done already.

Mayor Baker commented that conceptually, it's a great idea to form this committee, but there are some logistical issues. He said that he couldn't vote to approve the language as written in the agenda, but he supports the concept. He said that he wants to make sure that this committee would have a real purpose, and real work to do, and that there is a solid plan for their scope of work. He said that right now, there aren't staff resources available for a new committee. He said that he would prefer that this committee have a variety of view points represented, and also be nonpartisan. He said he would not support hiring a staff person specifically for this committee when there are a number of positions right now that need to be filled first.

Council Member Hamilton said that he didn't intend for there to be a decision made tonight, he wanted to present this topic formally so that Council could express their opinions on the idea. He said that he would like to get a sense of what it would take to form this committee as far as resources and time. He said he would like this committee to be a Council priority, and to get some feedback during budget discussions from City Management.

Mayor Baker commented that there is a consensus from City Council to have City Administration schedule a Study Session during the summer and to ask City Manager Miller to create a report describing the resources needed to form this committee, some recommendations for scope of work, and a timeline.

Council Member Hodorek commented encouraging City Council to reinforce and share information on social media.

Council Member Erickson Gault reaffirmed consensus of City Council moving forward after the more pressing issues are resolved.
