Dear Mr. Young and the Troy Fire Department Team,

On behalf of everyone at the Gastrointestinal Endoscopy Center, I would like to extend our sincere gratitude for taking the time to provide fire extinguisher training at our facility on July 10th.

Our staff greatly appreciated the opportunity to not only learn about fire safety but also to practice firsthand by pulling the pin, operating the extinguisher, and successfully putting out a live fire. This interactive training was both educational and engaging, and it allowed our team to build confidence in handling an emergency situation.

In addition, the experience served as a valuable team-building exercise, helping us come together while keeping a serious subject in perspective. This is a wonderful community service that is truly appreciated, and we are grateful to have such a dedicated department serving our area.

Please extend our appreciation to everyone involved. We look forward to continuing our partnership with the Troy Fire Department in the future.

With sincere appreciation,

Heather Bedell  
Center Administrator
