IMPASSE II® | WARRANTY HIGH SECURITY ORNAMENTAL STEEL FENCE

The Impasse II® Steel Security Fence System by Ameristar® is manufactured from the highest quality materials by skilled craftsmen to meet the highest standards of workmanship in the industry. Galvanized steel framework shall be subject to a six stage pretreatment/wash (with zinc phosphate) followed by an electrostatic spray application of the PermaCoat® Color System, a two coat powder system. The base coat is a thermosetting epoxy powder coating (gray in color). The top coat is a “no-mar” TGIC polyester powder coat finish, which provides the protection necessary to withstand adverse environmental conditions.

The powder coated surface on all framework (i.e., pales, rails and posts) by Ameristar is guaranteed under normal and proper usage, against cracking, peeling, chipping, blistering or corroding for a period of fifteen (15) years from the original purchase date. Normal and proper usage does not include physical damage, abrasion or exposure to salty environments to the protective coating.

Impasse II Steel Security Fence System framework is also guaranteed for the same period of time against defects in workmanship or materials.

Should any Impasse II® fence framework manufactured by Ameristar Fence Products fail in accordance with any of the above conditions, Ameristar® Fence Products warrants to the original purchaser their redemption through replacement, renewal or issuance of a pro-rated credit. The decision as to which method of redemption is allowed is solely at the discretion of Ameristar. If pro-rated allowance is the chosen alternative, the amount will be based on the total number of years under warranty from date of purchase to date of claim, based on the original cost of framing materials found to be defective. Notice of failure under the conditions of this warranty shall be sent to Ameristar Fence Products or its authorized representative, in writing, together with proof of purchase and shall specify the nature of the defect and when it was first observed. When cutting Impasse II components immediately seal the exposed surfaces by 1) Removing all metal shavings from cut area 2) Apply zinc-rich primer to thoroughly cover cut edge and drilled hole; let dry 3) Apply 2 coats of custom finish paint matching fence color. Failure to seal exposed surfaces per steps 1-3 above will negate warranty. If contractor uses non Ameristar parts/components this will negate the warranty. Should the fence be improperly installed, Ameristar Fence Products shall not be responsible for guaranteed performance or appearance of the material. Neither does this guarantee apply when failure or damage is due to improper use or application, abuse or misuse, salty environments, vandalism or acts of God. Ameristar Fence Products reserves the right to inspect the material to determine validity of the claim.

Upon validation of the claim by Ameristar Fence Products or its authorized representative, redemption by replacement, renewal or issuance of a pro-rated credit shall be made by Ameristar Fence Products. Reimbursement for labor necessary to restore and/or replace components that have been found defective under the terms of this warranty is guaranteed to the original purchaser for a period of five (5) years from the original purchase date. Ameristar reserves the right to select the qualified company or individual to perform the labor to repair or replace the components that are deemed to be defective under the terms of this warranty.

The above constitutes the complete warranty by the manufacturer. No other agreement, written or implied, is valid. Ameristar Fence Products does not authorize any other person or agent to make any other express warranties. Ameristar Fence Products neither assumes nor authorizes any other person or agent to assume any other liability in connection with the Impasse II Steel Security Fence System. Some jurisdictions do not allow limitations on how long an implied warranty lasts, nor do they allow an exclusion or limitation of incidental or consequential damages; therefore, the limitations and exclusions noted herein may not apply.

CITY COUNCIL AGENDA ITEM

Date: October 4, 2016

To: Brian Kischnick, City Manager

From: Gary Mayer, Police Chief
Tom Darling, Financial Services Director
MaryBeth Murz, Purchasing Manager
Kurt Bovensiep, Public Works Director

Subject: Budget Amendment and Bid Waiver - Police Department Perimeter Fencing

History

At the City of Troy Regular City Council meeting on August 8, 2016, City Council provided consensus to City Manager Kischnick to direct staff on ways to ensure the safety of Troy Police Officers. Police Chief Gary Mayer surveyed his sworn and non-sworn staff for ideas to assist in officer safety. 107 employees responded to the survey with 54% of sworn officers and 29% of non-sworn personnel indicating exterior site security as an idea to improve officer safety.

On August 22, 2016, Chief Mayer presented these results and other suggestions. An estimate of \$150,000 was presented for perimeter fencing around the Police Department parking lot. Other similar proposals, other fencing projects, and industry professionals substantiated this estimate. City Council provided consensus to move forward with the fencing project, which included presenting a formal recommendation on total cost and vendor. City Council also expressed that officer safety is an urgent matter and directed city administration to take any allowable actions to expedite the procurement process.

Several constraints were considered when approaching this project. The topography around the parking lot is different in several locations, which does not allow for the same type of vehicle access gates at each location. Furthermore, with the parking lot having existing structures such as car ports, building entrances, and heating and cooling bunkers caused for the consideration of where snow is piled to ensure it did not negatively impact the gate operations. Existing pedestrian entrance points are not currently protected, which meant control wiring and electrical power would have to be provided to these new locations. There was also consideration for the design of the fencing to provide a higher level of security but without emphasizing the image.

Purchasing

Members of the Police Department, Department of Public Works, and Purchasing Department worked together to formulate an expedited schedule to meet the stated urgency. Hubble, Roth and Clark (HRC), a City of Troy consultant firm was solicited to develop a schedule for the project engineering, design, and bid. The projected scheduled suggested installation would likely not take place until spring of 2017. Instead, the City of Troy team solicited four (4) local area vendors for an informal request for proposals. The project was described in a formal style bid document and provided opportunity for each vendor to meet with the city team to review the demands and constraints of the project. On September 30, 2016, four (4) proposals were received and reviewed.

The two lowest bidders, one of which is a Troy based company, only provided the fencing, vehicle access gates, and pedestrian gates but indicated the integration to the existing control access points and all the necessary electrical and wiring would be the responsibility of the City of Troy. This caused the team to add an additional \$70,000 to the two bids to establish a comparable proposal. After this consideration, Industrial Fence and

CITY COUNCIL AGENDA ITEM

Landscape Inc. was the lowest bidder meeting the demands for high speed vehicle gates with integration, 5 year warranty on the gate actuating motors, and a 15 year warranty on a higher quality fence.

Financial

Staffs 2016 estimate (Year End June 30, 2016) indicated an Unassigned Fund Balance of 39% of expenditures. The City Council policy is to remain between 20 and 30 percent of expenditures. On September 26, 2016, City Council resolved to appropriate \$2.6 million from the General Fund to the Capital Fund for Local and Major Road improvements (**RESOLUTION- 2016-09-167**). This transfer reduced the Unassigned Fund Balance to an estimated 35%. The information to City Council also indicated an opportunity to transfer the remaining \$1.5 million from the General Fund to the Capital Fund for future projects as a second step to be compliant with the current policy.

This agenda item allocates \$254,560 for Industrial Fence and Landscape's proposal to install perimeter fencing around the Police Department parking lot, five (5) vehicle access gates with card access controls (3 inbound gates and 2 outbound gates), and three (3) pedestrian access gates (2 pedestrian gates include card access control wiring). In addition to the total, City Administration recommends an additional 10% above the proposed price for contingencies for a total of \$280,000.

Recommendation

City management recommends an appropriation to transfer from the General Fund to the Capital Projects in the amount of \$280,000 along with the associated expenditure to the Capital Projects Fund for Police Department Perimeter Fencing. City management also recommends awarding a contract to *Industrial Fence & Landscaping, Inc., of Detroit, MI* for an estimated cost of \$254,560 with a 10% contingency for an estimated total of \$280,000 for the installation of perimeter fencing around the Police Department parking lot, five (5) vehicle access gates with card access controls (3 inbound gates and 2 outbound gates), and three (3) pedestrian access gates (2 pedestrian gates include card access control wiring).
