7TS™

7360 7TS™ ALS®/SLS LEVEL III RETENTION™ HOLSTER*

7362/7365 7TS™ ALS®/SLS HI-RIDE AND LOW-RIDE LEVEL III RETENTION HOLSTER

The Safariland® 7360/7362/7365 7TS™ Level III Retention™ duty holsters feature precision injection-molding, making them extremely lightweight and durable. Constructed from SafariSeven™, a proprietary DuPont™ nylon blend, the 7TS series holsters are non-abrasive to the weapon's finish, and nearly impervious to the elements, with very high tolerance to heat and cold.

These models use the ALS® (Automatic Locking System), and the SLS (Self Locking System) rotating hood closure, to achieve Level III Retention™. The holster's interior has raised surfaces that create airspace around the weapon, allowing dirt and moisture to quickly clear any contact. The holsters are compatible with all Safariland® holster mounting options. The 7365 low-ride option allows the holster to drop 1.5" (38mm) below the waist, and the 7362 hi-ride, raises the holster 1.5" above the mid-ride.

Description

This enhanced version of our best-selling SureFire X300 Ultra now delivers a stunning 1,000 lumens of LED-generated output focused by a precision TIR lens, creating a far-reaching high intensity beam — with a larger center spot — that offers the power to positively identify threats at significant distances while temporarily impairing an adversary's vision. This intense beam also provides extensive peripheral illumination for maintaining situational awareness.

Activating the X300 Ultra is done via ambidextrous switching located at the rear of body, providing one-finger control — press the switch on either side for momentary-on activation, flip up or down for constant-on activation. Optional DG grip switches (for pistols) and a pressure activated XT07 tape switch (for long guns) permit the X300 Ultra to be activated without altering your grip on your weapon.

The X300 Ultra can be attached to a pistol or a long gun since its Rail-Lock® system permits rapid attachment to and removal from either Universal or Picatinny rails. Its high-strength aerospace aluminum body is Mil-Spec Hard Anodized for superior toughness and is O-ring and gasket sealed to make it weatherproof.

Features

- Special high-performance LED produces 1,000 lumens
- Custom TIR lens creates smooth, far-reaching light with a larger center spot beam
- Integral ambidextrous momentary- and constant-on switching
- Attaches securely to both Universal and Picatinny accessory rails
- IPX7 waterproof to 1 meter for 30 minutes
- High-strength aerospace aluminum body, Mil-Spec Hard Anodized for extreme durability
- Accepts optional pressure-activated DG and XT remote switches for precision control without altering grip on weapon

Subject: Standard Purchasing Resolution 2 – Award to Low Bidder Meeting Specifications –
Gun Holsters and Lights– Police Department

History-

- Troy Police Department is currently using the Black Hawk Level III Serpa Holster and Blawck Hawk Xiphos NTx Weapon mounted lights (180 lumens) for the Officer's duty handguns.
- Both pieces of equipment are approximately nine (9) years old.
- The current holster has been the focus of studies that show issues of:
 - Inability to draw the weapon - when debris (dirt, snow, or mud) gets lodged in the safety release, the officer will not be able to draw the weapon out of the holster.
 - Accidental discharges - The safety release button is in line with the trigger finger which had been linked to accidental discharges when drawing the weapon.
 - Banned on Federal shooting ranges - Due to the above issues the holster has been banned on all federal ranges limiting training opportunities for Troy officers.
- In an effort to maintain officer safety and protection of citizens; the Police Department is seeking to replace the current holster with the Safariland Model 7360 & TS ALS/SLA holster and replace the current weapon mounted light with the Surefire x300 (1000 Lumens).
 - The proposed holster will maintain weapon security while eliminating the issues of failure to draw malfunction and potential for accidental discharge.
 - The current weapon mounted light is showing its age and beginning to malfunction.
 - Better LED technology has drastically increased Lumen capability and battery life.

Purchasing

- On February 21, 2019; a bid opening was conducted as required by City Charter/Code and bid proposals were received at the City's request from firms interested in providing Gun Holsters and Lights for the City of Troy Police Department.
- Companies were notified via the Michigan Intergovernmental Trade Network (MITN); www.mitn.info. One Hundred and Ninety four (194) vendors were notified via the MITN website.

- A detailed description of value, weapons specifications, and quantities are detailed in the attached bid summary.
- The low bidder did not offer any warranty on the holsters and lights as specified. Therefore, *Vance Outdoors, Inc. of Columbus, OH* is the low bidder meeting specifications with an estimated total of \$36,402.85. *Vance Outdoors Inc.* also has very favorable references.
