Mossberg Shotguns & Accessories
Page 1 of 1

To All Bidders:

Please be advised, the following document has been submitted for clarification for **ITB-COT 23-25 Mossberg Shotguns & Accessories**. The clarification(s) and or change(s) will be considered an integral part of the original proposal document.

The following information was requested:

Request:

Some representative pics would be helpful, need to know age, approximate round count, more specific model numbers. And we also need to know the BBL Length of the trade in shotguns.

Answer:

Model numbers and barre lengths are listed on the spreadsheet within the bid as an attachment to the bid specifications. The City of Troy Police Department has no means of estimating round count.

Because there is such a wide age range of the shotguns there are many different barrel lengths, stocks, grips, and wear conditions. It's hard to get a truly representative sample. The aforementioned spreadsheet will help with this as well.

Please see the attached representative pictures of the trade in items. (2 pictures)

Please be advised that the City of Troy Purchasing Department has authorized the following clarifications to for Bid Proposal **ITB-COT 23-25, Mossberg Shotguns & Accessories**. The clarifications will be considered an integral part of the original proposal documents.

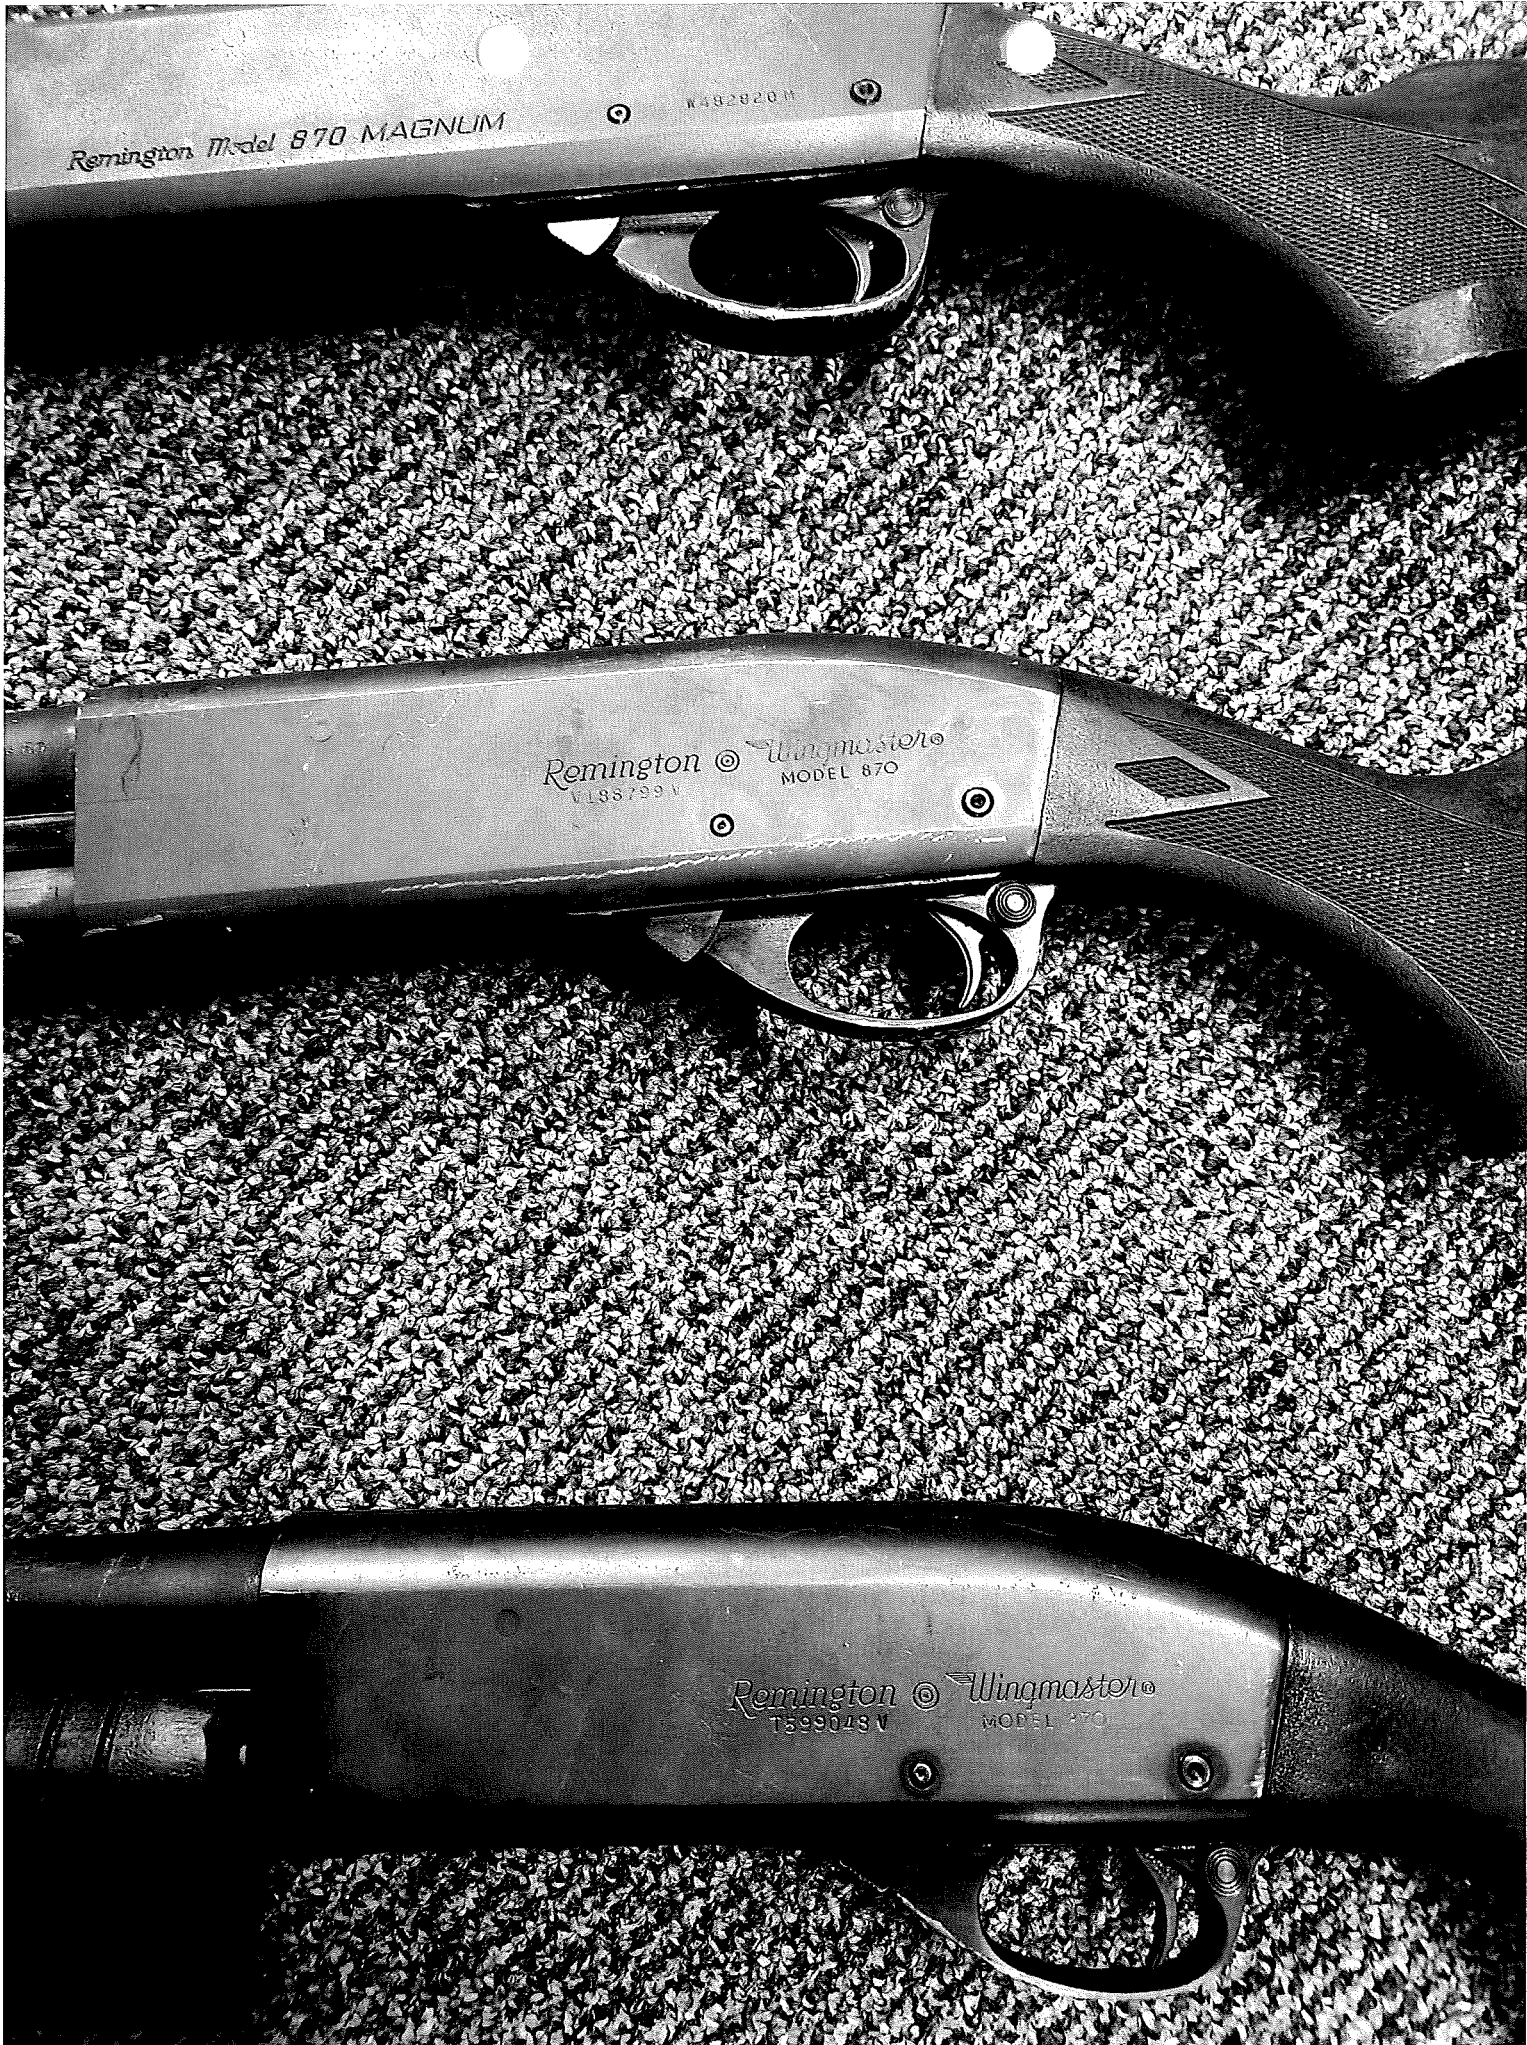

I, the undersigned Bidder, have read this addendum and have integrated the changes into the Bid Proposal documents for **ITB-COT 23-25, Mossberg Shotguns & Accessories**. All other items in the original proposal document remain the same. This addendum should be attached to the Electronic Bid Submission Response at the time of submission on or before **Thursday, September 14, 2023 at 10:00 A.M., EDT.**

Subject: Standard Purchasing Resolution 2: Award to Low Bidder Meeting Specifications - Less Than Lethal Shotguns, Troy Police Department

History

Our current inventory of shotguns is over 20 years old with most being manufactured between 1999 and 2002. Some go back to 1982. Some of the older shotguns went through a rebuilding process in 2004 completed in-house by our department armorers. At this point, the shotguns are beyond their service life. This includes shotguns with worn and loose parts.

We would like to replace our shotguns with less lethal shotguns. Less lethal shotguns would fire a bean bag round as opposed to a live round. Increasing our less lethal options will increase our ability to deescalate potential deadly encounters, save lives, make arrests and keep the peace.

Our Officers have pepper spray in command cars and tasers immediately available to them as less lethal options. But there are limitations with regards to effectiveness and distance. Having a dedicated less lethal shotgun in all patrol cars would give our Officers an immediate less lethal option that can be used from up to 70 feet away.

This purchase would include (53) less lethal shotguns with accessories and ammunition for practice and qualification and trade-in of (65) 20-year-old shotguns.
